1.	Spatial Strategy/ Spatial Strategy for the Royal Borough of Windsor and Maidenhead	SP1 / 5.2	<p>Amend the wording in Policy SP1 as follows:</p> <p>5.2 Policy SP1 Spatial Strategy <u>for the Royal Borough of Windsor and Maidenhead</u></p> <p>Policy SP-1</p> <p>Spatial Strategy for the Royal Borough of Windsor and Maidenhead</p> <p><u>1.</u> The Council's overarching spatial strategy for the Borough is to focus the majority of development in three <u>strategic</u> growth areas (Maidenhead, Windsor and Ascot) to make best use of infrastructure and services, in addition to providing a sustainable approach to growth.</p> <p><u>Maidenhead</u></p> <p>4.2. Within Maidenhead new development will largely be focussed on the strategic growth location which is comprised of Maidenhead Town Centre and South West Maidenhead. Higher intensity development will be encouraged in the strategic growth location, particularly within the town centre and near to the Maidenhead railway station to take advantage of the Elizabeth Line connections. New development will largely be focused on the strategic growth location of Maidenhead. Maidenhead town centre will be a major focus of sustainable growth to support its important role within the wider Thames Valley. Maidenhead town centre will be a major focus of sustainable growth to support its important role within the wider Thames Valley. Regeneration and new housing, employment, retail and leisure development will help provide a high quality, highly connected and vibrant place.</u>A large proportion of the Borough's new housing development is to be built as an extension of the town with approximately 2,500 homes focused on a cluster of sites near to Maidenhead railway station (Maidenhead Golf Course, Land south of Harvest Hill Road and Land south of Manor Lane). Growth in Maidenhead will be focused on existing urban sites wherever possible, with some limited release of Green Belt.</p> <p><u>4. South West Maidenhead will provide a sustainable extension to Maidenhead. This new place will accommodate a large proportion of the Borough's required new housing and employment, as well as providing for leisure and recreation needs.</u></p> <p><u>5. Development in Maidenhead outside of the strategic growth location will be focussed on existing urban sites wherever possible, with some limited release of Green Belt.</u></p> <p><u>Windsor</u></p> <p><u>6.</u> Windsor is identified as a growth area accommodating limited growth in the town centre and on its western edge. Windsor town centre has national and international significance as a major focus of visitor and tourist activity based on Windsor Castle and the River Thames. The conservation of existing</p>

Development in the Ascot growth location will be largely based on Ascot Centre. The coordinated development of several sites related to Ascot High Street will provide the opportunity to strengthen its role as a significant centre in the Borough providing a wide range of uses and activities, and include the provision of public open space. This will be achieved through the redevelopment of existing sites as well as limited Green Belt release.</p> <p><u>Villages and Greenbelt</u></p> <p>3.8. The villages excluded from the Green Belt will continue in their roles as local centres as well as providing limited opportunity to accommodate new development. This will largely be achieved through the redevelopment of existing brownfield sites within the villages alongside limited Green Belt release.</p> <p>9. Employment needs will largely be met in existing settlements.</p> <p>5.9. The Green Belt will be protected from inappropriate development in line with Government policy</p>

All development shall minimise the impact of surface water runoff from the development in the design of the drainage system, and where possible incorporate mitigation and resilience measures for any increases in river flooding levels as a result of climate change</p> <p>2. Adaptation is about making sure future communities can live, work, rest and play in a comfortable and secure environment in the face of inevitable climate change. Taking action now to help successfully achieve adaptation measures would help to reduce vulnerability for people, businesses, services and infrastructure to climate change. Adaptation measures need to be built into all new developments to ensure the sustainable development of housing, businesses and the economy of the Royal Borough.</p> <p>3. However, where there is clear evidence that there is a quantitative surplus of one or more types of open space/play facilities in the local area, these standards will be applied flexibly in order to address any local deficits.</p> <p>2)6) Whilst on-site provision is preferred, provision of new open space and play facilities on an alternative site within walking distance of the development site, as set out in Appendix F, would be acceptable if this meets the needs of the community and results in a greater range of functional uses. A financial contribution towards improving existing provision may be acceptable if there are qualitative open space deficiencies in the area.</p> <p>2. New open space will be required on housing sites as set out in the site pro forma and in line with the most up to date requirements contained in the Open Space Strategy.</p> <p>3. Development proposals to increase access to natural open space should be subject to evaluation of the impact of visitor numbers.</p> <p>4. Allotments within the Borough will be protected. There will be in principle support for new allotments, community gardens and orchards.</p> <p>5. Provision of an alternative open space is deemed appropriate as part of development proposals, in a 'close by' suitable location which is flexible in meeting the needs of community and lends itself to a greater range of functional uses required in that area. Open space will be required to be delivered in perpetuity. A "close by" location is defined in accordance with the accessibility criteria in Appendix G.</p> <p>6. The Council will encourage improvements to the quality and quantity of the Green Infrastructure Network in the Borough. The protection and</p>
